

# RENDEZ-VOUS in La Réunion Island

A COCKTAIL OF CULTURE, LANGUAGE AND ENGINEERING

From February 28<sup>th</sup> to March 13<sup>th</sup> 2016

## Sustainable development in isolated territory

In a changing world, small territories face special issues and concerns on sustainable development. Practices, problems and solutions for small communities are necessarily different from those for urban environment. In order to manage waste, water, electricity, fishing and production of renewable energies, isolated territories develop innovative environmental performance in resource usage and management.
