

RENDEZ-VOUS *in Montpellier*

A COCKTAIL OF CULTURE, LANGUAGE AND ENGINEERING

From June 5th to 18th 2016

Sustainable development in urbanized territory

The explosion of urban growth over the coming decades is one of the major challenges that humanity will have to face. How to manage urban sustainable development? How to provide solutions tailored to people's aspirations? Tomorrow's engineers will have to imagine new ways of producing energies, managing resources (water and waste treatment), optimizing public transportation, etc.

ENJOY PARIS FIRST!*

"n+i" welcomes you in Paris where you will enjoy the very famous Eiffel Tower, a cruise on the river Seine as well as a walking city tour in the Latin Quarter, one famous area of Paris.

ALL INCLUDED PACKAGE
