## STUDY IN HUNGARY

Hungary provides high quality education in the heart of Europe. Today, there is a growing demand of international students to study in Hungary. Besides the quality of education and degrees recognised throughout Europe and beyond, students are attracted by the **affordable living costs** with an extremely favourable cost-to-value ratio, a **safe and friendly living environment** with convenient public transportation, the **central location of the country in Europe** and the unspoiled **natural beauties** combined with a 2000 year-old, rich Hungarian history and several UNESCO World Heritage Sites. Hungary is also amongst the top countries with the **highest number of scientific Nobel Prize Winners per capita**, and numerous scientific inventions from **Vitamin C** to the **Rubik's cube** and so on.

## > TEMPUS PUBLIC FOUNDATION

Tempus Public Foundation (TPF) is a non-profit organization established in 1996 by the Hungarian Government. Its tasks include the management of international cooperation programmes and special projects in the field of education, training and EU-related issues.

TPF aims at encouraging international cooperation and mobility; the modernization and quality improvement of education, training and human resources development, and the strengthening of European dimensions in these fields.

TPF manages the Stipendium Hungaricum Scholarship Programme and acts as the National Agency of the Erasmus+ Programme and also coordinates CEEPUS, EEA Grants, Pestalozzi and ACES programmes. It hosts the National Information Point for Europe for Citizens programme and runs the National Europass Centre.

As a knowledge centre, TPF is involved in international cooperation, provides information on education and training policies in a structured form, and offers project management and skills development training tailored to learners' specific needs.

# SCHOLARSHIP PROGRAMMES

## STIPENDIUM HUNGARICUM SCHOLARSHIP PROGRAMME

The Stipendium Hungaricum Scholarship Programme was launched in 2013 by the Hungarian Government. The core mission of the programme is to increase the number of foreign students in Hungary and to encourage Hungarian higher education institutions to attract top foreign students. The programme is based on bilateral educational cooperation agreements signed between the Ministries responsible for education in the sending countries/territories and Hungary or between institutions. Currently more than 50 Sending Partners are engaged in the programme throughout 4 different continents.

The new Call for Applications for studies starting from the Academic Year 2017-2018 is now available!

The official website of the Stipendium Hungaricum Programme:

[stipendiumhungaricum.hu](http://stipendiumhungaricum.hu)

## ERASMUS+

Erasmus+ is the European Union's programme for education, training, youth and sport. It aims to equip European citizens with the education, skills and creativity they need in a knowledge-based society. Erasmus+ provides opportunities for over 4 million Europeans to study, train, gain work experience and volunteer abroad. Erasmus+ helps organise student and doctoral candidate exchanges within Erasmus+ Programme countries and to and from Partner countries with the help of scholarships (learning mobility of individuals) and cooperation/development/networking initiatives.

If you are interested in spending a study period in one of the Hungarian universities please contact the international office of your higher education institution.

# UNIVERSITY OF DEBRECEN

## > THE GREEN JOURNEY <

Debrecen is the most populous city in Hungary outside Budapest; with its 230,000 inhabitants, it is the educational, cultural and economic centre of the region.

The History of the University of Debrecen dates back to the 16th century. Nowadays the 14 faculties situated on 6 campuses have almost 30,000 students. The international programs were launched in 1987 and all of them are delivered in English. At present, the number of international students is about 4,300 and they represent countries from all major regions of the world.

The university offers an extensive range of study-abroad programs for students, who can also complete their internship abroad, at one of our partner companies. At the moment, we have more than 300 partner universities around the world. With the help of the Erasmus+ program, our students can spend one or two semesters at one of our European partner universities.

As one of the three Hungarian universities holding the title of "University of National Excellence", the University of Debrecen plays a major role in innovation and research.

Degrees attained at the University of Debrecen are generally accepted in the countries of the European Union. Education at Debrecen Medical School is accredited by the World Health Organization, The State Education Department (NY, USA), Medical Board of California, the General Medicine Council, Medical Councils of Israel, Ireland, Iran, Norway and in the U.A.E.

WITH A VARIETY OF TRAINING PROGRAMS, THE UNIVERSITY OF DEBRECEN HAS THE WIDEST SELECTION OF UNDERGRADUATE, GRADUATE AND PHD TRAININGS IN HUNGARY:

- Medicine, Dentistry, Pharmacy
- Engineering
- Business
- Health Sciences
- Agricultural
- IT programs

# UNIVERSITY OF DUNAÚJVÁROS

## > STUDY AND MORE... <

The University of Dunaújváros provides a wide-range of accredited study courses of European standard to our Hungarian and International students. The aim of the programs is to offer accredited education of a European standard to students admitted enabling them to find employment anywhere in the world after acquiring this competitive knowledge.

The main strengths of our courses in English are as follows:

- Curricula and subject contents adjusted to Hungarian and international standards and market needs;
- Our students can acquire an advanced level of the English language, as necessary for practising the profession. We offer a foundation year, the English Preparatory Program as well.
- Practice oriented training enabled by close relations and cooperation with the business, private and public sectors of the region;
- Infrastructure of a European standard, continuously expanding and improving campus, professional labs, lecture halls, library, dormitory, etc.

We are looking for future partnerships with HEI's in order to expand the number of our Double Degree programs, joint programs and research. We are also looking for future partners in the frame of Erasmus+ as the new LLP programs give more space for establishing cooperation with non-EU countries.

Our main goal is to build long-term partnerships with reliable partners in the fields of student recruitment and to provide information about our study program range available in English to the potential partner institutions, companies or students.

### COURSES IN ENGLISH:

- Communication and Media BA
- Business Administration BA
- Technical Management BSc
- Engineering Information Technology BSc
- Mechanical Engineering BSc
- Material Engineering BSc
- Mechanical Engineering MSc
- Teacher of Engineering MA

# EÖTVÖS LORÁND UNIVERSITY

➤ QUALITY EDUCATION – QUALITY RESEARCH ◀

Eötvös Loránd University (ELTE) - in terms of student and staff numbers, quality of education and research, and its international relations - is a prestigious institution of public higher education in Hungary, operating continuously since its inception in 1635.

As a top-ranked university in Hungary, it is the most popular higher education institution among applicants as well as alma mater of five Nobel laureates and leading figures in technology, public policy, and culture in Hungary.

ELTE has widespread international relations. It holds about 450 bilateral agreements for cooperation and exchange all over the world. It is an active member of prestigious international university networks and it is involved in joint degree programs with international partner universities. These partnerships offer a large number of possibilities for mobility and international collaborations to students and researchers at ELTE.

ELTE not only offers quality education to the international community but it is also a great place to conduct research. Research at ELTE means international collaborations, interdisciplinary approaches, modern laboratory infrastructure, and innovation. Our researchers run cutting-edge projects funded by the European Union and the Hungarian Academy of Sciences. Along with international partners, our research groups are also building strong connections with industry.

Study fields and main research areas at the eight faculties: Education and Psychology, Humanities, Informatics, Law, Primary and Pre-school Education, Science, Social Sciences, and Special Education.

## HUNGARY'S LARGEST SELECTION OF EDUCATIONAL PROGRAMS:

- 38 bachelor's programs
- 96 master's programs
- 98 combined undergraduate-graduate teaching degree programs
- Over 60 degree programs for international students in foreign languages
- 17 doctoral schools and 118 PhD programs

Currently about 25,000 students study at ELTE with about 2200 international students from over 80 countries. The diplomas issued are acknowledged worldwide, and its course credits are transferable in all countries of the European Union.

Eszterházy Károly University (EKU) was established in Eger in the 18th century. Presently serving over 10000 students, it is one of the most popular universities in the Northern-Hungarian region. It provides quality education, excellent research opportunities and offers a friendly atmosphere for its students.

The 5 Faculties of the University (Humanities, Economics and Social Sciences, Natural Sciences, Pedagogy, Agricultural Sciences and Regional Development) are located in 4 Campuses in the beautiful historic towns of Eger, Sárospatak, Gyöngyös and Jászberény.

The University's Research and Development Centre hosts 5 research units and a Knowledge Transfer Office, enhancing relations between the industrial sector and higher education.

EKU offers a wide range of BA/BSc and MA/MSc programmes and 2 doctoral programmes in History and Educational Sciences.

International students can choose from a wide variety of accredited study programmes offered in the English language.

EKU offers various services for incoming students, such as Orientation Days, intercultural trainings, extra-curricular programmes, accommodation in dormitories and student mentoring system.

Our institution is an active participant of the Stipendium Hungaricum Scholarship Programme, and also welcomes applicants of other scholarship programmes and inter-institutional agreements.

Furthermore, students from all over the world come to study in the summer schools of EKU every year.

# UNIVERSITY OF MISKOLC

## > THE CAMPUS OF KNOWLEDGE AND COMMUNITY SPIRIT <

A unique, spacious campus, home to more than 10 thousand students and 600 lecturers and researchers, in a beautiful natural environment, up-to-date laboratories, lecture halls, workshops, students hostels and facilities for sport, culture and entertainment – this is the University of Miskolc. Tradition (founded in 1735) combined with novel directions in research and education result not only in a large number of professional awards, but also in an increasing interest of foreign and Hungarian students who pursue studies at the highest academic level at the University of Miskolc.

Graduates of the University acquire exceptional skills during their time in Miskolc and gain jobs with a wide variety of top employers. Miskolc with its more than 150 thousand inhabitants is a traditional industrial city, the cultural and economic centre of the North Hungarian Region. The University of Miskolc welcomes all purposeful and motivated students who aim to study in a traditional yet modern and fresh academic environment.

# UNIVERSITY OF PÉCS

PÉCSI TUDOMÁNYEGYETEM  
UNIVERSITY OF PÉCS

## > THE FIRST UNIVERSITY IN HUNGARY, 1367 <

With its 20,000 students and 500 different study programmes the University of Pécs (UP), the oldest university in Hungary, is one of the largest institutions of higher education in the country.

The University has conducted degree programmes in English for more than 30 years and so has become one of the most internationalized universities in Hungary.

We are proud to host more than 3,300 international students coming from more than 100 countries in the world.

The University of Pécs has a wide range of partner universities throughout the world. Currently there are 75 such partnerships and many of these include student and staff mobility and other forms of collaboration.

The University of Pécs took leading positions in highly recognized rankings:

- UP is ranked among the top 3 Hungarian universities
- UP belongs to the leading 3.6% of international higher education institutions worldwide (CWUR)

The University is located in the uniquely beautiful, vibrant and lively city of Pécs which was designated to be the European Capital of Culture in 2010.

# UNIVERSITY OF SZEGED

## › THE GREATEST COMMUNITY IN TOWN ‹

The University of Szeged (SZTE) with a history dating back to 1581, is located in the sunniest city of Hungary attracting thousands of young people due to its lively, urban lifestyle and colourful festivals. Considering international rankings SZTE usually appears around the outstanding 550th position globally, and in 2016 it was ranked the best Hungarian university (QS).

Outstanding professors have worked at the university, including the Nobel Laureate Albert Szent-Györgyi (1937), who was the first to isolate Vitamin C, extracting it from Szeged paprika.

The University of Szeged is one of the largest universities in Hungary, and the efforts of its nearly 21,500 students and close to 7,000 employees at the 12 university faculties help make the institution the regional centre of knowledge in Hungary and Central Europe.

The number of the international students is constantly increasing and it reaches 14% of the student body. A mentor system assists them to settle down in Szeged and find their way in the University.

The high prestige international study programmes have been available at the University of Szeged for three decades. SZTE offers international degree programmes at Bachelor's, Master's and Ph.D level.

# SZENT ISTVÁN UNIVERSITY

## ➤ CULTIVATING KNOWLEDGE AND SUSTAINABILITY ◀

Szent István University (SZIU) consists of 8 different faculties for study and research hosting nearly 15,000 students. Degree programmes are offered in natural and environmental sciences, agriculture, food engineering, horticulture, landscape architecture, economics and social sciences, mechanical and civil engineering. Programmes are available in English at BSc, MSc and PhD level.

With parts of its history dating back well over 200 years, SZIU blends Hungary's rich traditions with cutting-edge technology to meet the needs of its students in today's competitive labour markets.

SZIU understands the importance of internationalization and promotes a variety of international activities. It is among our top priorities to strengthen our external relations on local, regional, national and international levels. With active partners in almost every continent (more than 100 partner institutions in 50 countries), SZIU students and staff can operate on a global scale to gain and share the essential knowledge for success in the globalized world. We see this as the cornerstone for a more secure tomorrow and are proud to be a vital part of it.

# Hungarian Rectors' Conference

The Hungarian Rectors' Conference (HRC), as the unique representative body of the local universities, is proud to be one of the oldest and most prestigious organizations in Hungary responsible for the university sector, academic cooperation and internationalization of the higher education.

During the past years a great emphasis has been put on fostering internationalization in Hungary, and the HRC is taking a major role in enhancing incoming and outgoing student mobility, the promotion of the Hungarian culture, academic life and research cooperation, and conducting various international projects and agreements.

Among its activities, the HRC organizes terminology specific and general language courses, offers a special intercultural multidisciplinary summer program, and has an established method for coordinating and allocating a great number of students arriving in Hungary.

Apart from academic related issues, the HRC provides assistance in facilitating visa and residence permit issuance, receiving a beneficial insurance service package, finding accommodation at a reasonable price and help students with legal issues and psychological consultation service in Hungary.

The HRC operates with a young and enthusiastic team, with strong engagement towards development, focusing on innovative solutions and is keen on achieving outstanding success together with its partners in the realization of joint higher education projects.

We look forward to creating new collaborations in order to strengthen the academic, scientific and cultural ties between Hungary and partner organizations, we are eager to increase the number of joint programs, to boost participation in international projects and to contribute to research activities.
