

RWTH Aachen University Summer Schools 2016

The RWTH Aachen University Summer School offers a truly dynamic and engaging academic and cultural environment for its international visitors. Through its academic summer course offerings in the historic and enriching city of Aachen, the top ranked RWTH Aachen University provides students the opportunity to take part in state of the art and hands-on approaches to technical learning at one of the leading European scientific and research institutions.

Different courses – one summer! You can choose between:

[Automotive and Mobility Studies \(20. June - 01. July 2016\)](#)

[Automation and Simulation \(11. - 29. July 2016\)](#)

[Mechatronic Systems Engineering and Product Innovation \(18. - 29. July 2016\)](#)

[Production Technology meets Industry 4.0 \(08. - 26. August 2016\)](#)

[Robotics for Future Industrial Applications \(08. - 26. August 2016\)](#)

[Systematic Product Innovation \(04. - 15. July 2016\)](#)

All Summer School courses are uniquely designed for international undergraduate students who want to gain insight into one of Germany's Universities of Excellence. The RWTH International Academy works closely together with various Institutes of RWTH Aachen University, the International Office and the Language Centre to offer international students a perfect mix of technical and practical knowledge as well as cultural experiences.

Have fun while studying!

- Social and cultural events in Aachen and surroundings (three-border region Germany, Belgium and the Netherlands)
- Visits to UNESCO World Heritage sites and excursions to Cologne, Düsseldorf or Bonn
- On-site company visits at RWTH's industrial partners
- Intercultural training; Get-togethers with the international students community
- Cooking and dancing nights, sport events, BBQs and many other activities

All participants will also have a "Buddy", a regularly enrolled student of RWTH Aachen University. He or she is your buddy to get introduced to the student life in Aachen.

Summer School – Key Facts

Application Deadline: 1 May 2016 (1 March to get a 10% Early Bird discount)
Duration: 2 or 3 weeks (June to August)
Credits / Workloads: 2 or 3 ECTS credits according to the workloads (60 hours - 2 weeks and 90 hours - 3 weeks)
Participants will receive a certificate of completion at the end of the summer school. Ultimately it is up to your home institution as to how much credit is awarded. For details, speak to your Study Abroad advisor!
Fees: 1,800.00 EUR (2 weeks) and 2,800.00 EUR (3 weeks)
The course fees contain an all-inclusive package: lectures, laboratory courses and excursions, social events, accommodation, breakfast, lunch, all meals during social events and a local public transport ticket for the respective time.
