Expand Your Horizons this Summer at Technion

Entrepreneurship and Innovation

Dates: **June 22-July 23, 2015** (dates subject to change)

Cost*: **\$6,000** (includes housing)

Entrepreneurship and Innovation is a 5 week program that combines academic coursework with hands-on experience. Business and industry site visits are part of this exciting academic curriculum. The program awards at least 6 academic credits and offers study tracks focusing on:

- **General Technology**
- **Bioengineering and Biomedical Technologies**

Engineering for Developing Communities

Dates: **July 19-August 14, 2015** (dates subject to change)

Cost*: **\$5,000** (includes housing and meals)

Engineering for Developing Communities is a 4-week program aimed at providing students with a better understanding of the importance of engineering in social and community development in underdeveloped communities around the world. Through hands-on field work, students will study sustainable community development and technologies beneficial to improving quality of life. Over the past few years the program was held in Bedouin communities in Israel, and in small villages in Nepal and China.

Summer School of Engineering & Science

Dates: **July 28-August 27, 2015** (dates subject to change),

Cost*: **\$4,000** (includes housing)

This summer program invites talented students to undertake a challenging academic experience that combines advanced courses in exciting engineering and science fields at state-of-the-art facilities. Students may choose an advanced academic course out of courses offered in: electrical, civil, mechanical and aerospace engineering, mathematics and chemistry.

*All fees are in US currency

At Technion you'll discover the spirit of the "Start-Up Nation."
