What is Gastech Student Programme?

Launched since 2006, the Student Programme is a key part of Gastech that aims to introduce final-year students and first-year graduates to the global gas industry by providing them with a one day programme of their own and full access to Gastech conference and exhibition.

Objectives:

- Promote local development of the next generation of leaders in the energy industry
- Provide students with opportunities to connect with industry professionals as they embark on a career in the energy industry

Benefits to Universities/Institutions:

- Develop the next generation of leaders in the energy industry
- Enhance exposure for students/graduates in a global energy event
- Increase opportunities for employment for students/graduates

Benefits to Students:

- Gain key industry knowledge with access to the conference programme (worth £3,099)
- Network with peers, industry professionals and thought leaders
- Connect with companies in the industry
- Gain first-hand experience at the world's largest event for the natural gas and LNG industry
