Country pavilions

What is Gastech Young Engineer Foundation (GYEF)?

Launched in Korea 2014, Gastech Young Engineer Foundation (GYEF) is a Gastech initiative that supports the next generation of engineers who are moving the industry forward. Recognising the growing need to attract young talents into the industry to fill the skills gap, GYEF seeks to acknowledge and support young energy professionals who will eventually become the industry's future leaders.

Objectives:

- Promote local development of the next generation of leaders in the energy industry
- Provide young engineers with exposure and networking opportunities as they start out in their careers

Benefits to Companies:

- Enhance and add to internal development programmes and young engineers' professional development and capability
- Opportunity to showcase best practice in local content and CSR policies locally, regionally and globally

- Bolster the professional development of engineers currently in the early stages of their careers in the gas industry
- Increase opportunities for networking for young engineers

Benefits to Young Engineers:

- Gain key industry knowledge with access to the conference programme (worth £3,099)
- Network with peers, industry professionals and thought leaders
- Access to the GYEF alumni with lifetime opportunity for networking
- Gain first-hand experience at the world's largest event for the natural gas and LNG industry

Audited figures from Gastech Korea 2014

Engineers who are selected are entitled to:

- 1 x complimentary delegate pass for Gastech Singapore 2015 - Free admission to all Gastech Conference and Exhibition and networking events
- Become a lifetime member of the Young Engineer2 Alumni
- Online networking opportunities - access to forums that connect young engineers with other young engineers and senior officials
- Online mentoring - a dedicated section for thought leaders to mentor young engineers
- Free subscription for 1 year to leading industry publications
- Opportunity to be part of essay competition - winner will present at Gastech

Criteria for engineers participating:

- Possess a minimum of 1 year and no more than 3 years full-time employment in the energy sector from the date of application
- Currently an employee in the energy sector which can be verified by at least one senior manager. Energy sector includes:
 - **Gas upstream companies** - Exploration and Production; Liquefaction
 - **Gas midstream companies** - Pipeline; Shipping & Marine; Rail; Truck; Storage
 - **Gas downstream companies** - Regasification; Power Generation
- No more than 5 engineers from one organisation

Application process:

- Each energy company/organisation to submit a minimum of 1 and a maximum of 5 young engineers
- Young engineers to submit their applications at:
www.youngengineerfoundation.com
- Application is now open and closes end May 2015

*Organisations financially support their young engineers to attend Gastech. Selected young engineers will have free access/admission to all Gastech Conference, Exhibition, delegate lunch, attendance to selected social functions and access to Gastech Papers and Presentations (post event)

Abstract Submission:

- Young engineers may enter an essay competition by submitting a 2000 word abstract - the winner of the competition will present their essay in the main conference programme on the last day of Gastech.

Topic: Please give your views on the challenges the gas industry will face in the next 20 years. Please indicate the stream you are focusing on - upstream, midstream and/or downstream.

*Engineer selection will be at the discretion of the advisory committee.

*Terms and benefits are subject to changes.
