 - Third ringing shows the time to finish your presentation of your research, and move on to Q&A. Sixth ringing shows the time to finish your whole presentation.

How to Screening

1. Referees

The referees are prepared more than three instructors for each area. They are basically organized by the instructors in Ritsumekan University.

2. Screening Standard

Some students are commended as awards for excellent presentations.

Each of three referees independently evaluate one presenter, and they fill the points in the evaluation form. The detail how to evaluate is shown later slides.

The sum of the points filled in the form by three referees denotes a presenter's points. Commended students are elected in descending order of the score.

Election of good presenters is carried out no sooner than the presentation section is finished.

Good presenters are elected for a few presenters.

Referees are dispersed out no sooner than the election is done.

How to Screening

3. Awards

Some of the students are elected based on screening standard, and awarded a prize with certification letter for excellent presentation satisfied with a).

- a). **Registration is completed, and has presented in EPCR 2018.**

The Prizes are prepared in the following:

- ◆ *Best Presentation Award* ... Awarded to the best presenters.
- ◆ *Excellent Award* ... Awarded to the excellent presenters.
